SECTION IV - FIRE AND EXPLOSION HAZARD DATA	1.	
FLASH POINT: 123° F. T.C.C. EXTINGUISHING REDIA: (X) FOAM () ALCOHOL FOAM (X) CO2 (X) DRY CHEMIC U. (X) WATER FOG () OTHER UPPER FLAMMAB I. ELIMIT: NOT AVAILABLE LOWER FLAMMAB I. ELIMIT: NOT AVAILABLE UNUSUAL FIRE AND EXPLOSION HAZARDS: Combustible. Exposure of closed containers to heat can cause d sruptive pressure. Vapors are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, other flames and ignition sources at locations distant from material handling point. Do not flush into public sewer system. SPECIAL FIREFIGHTING PROCEDURES: Avoid breathing fumes. Wear adequate respiratory protection: Water may be ineffective as extinguishing medium but may be used to cool closed containers exposed to heat. Respiratory protection should be self-contained, breathing apparatus type with a full face piece operated in a pressure demand or other positive pressure mode. SECTION V - TRANSPORTATION DATA DOT - COMBUST BLE LIQUID Not regulated by grd und transportation in non-bulk packaging (450 L or 119 gallons or less) per 49 CFR 173.150 (f)(2). SECTION VI - TOXICOLOGICAL PROPERTIES EFFECTS OF OVER EXPOSURE: SKIN: May cause skir Irritation. Prolonged or repeated contact can result in defatting and drying of the skin which may result in dermatitis. EYE: May cause eye irritation. Symptoms include stinging, tearing, redness. INHALATION: Vapor: may cause narcosis and irritation of respiratory system. Prolonged or repeated contact can cause eye irritation. Symptoms include stinging, tearing, redness. INHALATION: Vapor: may cause narcosis and irritation, dizziness, weakness, fatigue, nausea, headache, possible unconscious less, and even asphydation. SWALLOWING: Can cause gastrointestinal irritation, vomiting. Aspiration (breathing) of vomitus into lungs must be avoide; if can enter lungs and cause severe damage. Harmful or fatal if swallowed. None of the ingredie its of this mixture are listed as a carcinogen or potential carcinogen by the National Toxicology	pH	
EXTINGUISHING MEDIA: (X) FOAM () ALCOHOL FOAM (X) CO2 (X) DRY CHEMIC AL. (X) WATER FOG () OTHER UPPER FLAMMABLE LIMIT: NOT AVAILABLE LOWER FLAMMABLE LIMIT: NOT AVAILABLE UNUSUAL FIRE AND EXPLOSION HAZARDS: Combustible. Exposure of closed containers to heat can cause d sruptive pressure. Vapors are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, other flames and ignition sources at locations distant from material handling point. Do not flush into public sewer system. SPECIAL FIREFIGHTING PROCEDURES: Avoid breathing fumes. Wear adequate respiratory protection. Water may be ineffective as extinguishing medium but may be used to cool closed containers exposed to heat. Respiratory protection should be self-contained, breathing apparatus type with a full face piece operated in a pressure demand or other positive pressure mode. PENETROL/MARINE PENETROL

SECTION VII - FIRST AID PROCEDURES

SKIN: Wash affected area with soap and water, flush with large amounts of water. If irritation persists, get medical attention. Do not continue to wear oil-soaked clothing. Discard oil-soaked leather goods. EYE: Flush immedial by with large amounts of water for at least 15 minutes while holding eyelids open. Get medical attention.

INHALATION: Remore victim to fresh air. Seek medical attention if symptoms persist.

SWALLOWING: DO I OT INDUCE VOMITING due to danger of aspirating oil into lungs. If vomiting occurs spontaneously keep head below hips to prevent breathing of liquid into the lungs. DO NOT give anything by mouth if the person is unconscious or having convulsions. Get medical attention immediately.

NOTE TO PHYSICIAI : Aspiration of liquid petroleum products into lungs may cause severe pneumonitis (oil pneumonia). Vomiting should not be induced.

SECTION VIII - REACTIVITY DATA

STABILITY: () UNSTABLE (X) STABLE

HAZARDOUS POLIMERIZATION: () MAY OCCUR (X) WILL NOT OCCUR

HAZARDOUS DECOMPOSITION PRODUCTS: Combustion in restricted environments can produce carbon mor oxide, carbon dioxide and various hydrocarbons.

CONDITIONS TO A /OID: Storage of combustible materials wetted with liquid can produce heat and spontaneo is combustion.

INCOMPATIBILITY MATERIALS TO AVOID): Stable under normal conditions of use. Avoid contact with strong cxidizers.

SECTION IX- SPILL OR LEAK PROCEDURES

STEPS TO BE TAKI:N IN CASE MATERIAL IS RELEASED OR SPILLED: Remove all sources of vapor ignitions. Ventilate area. Stop spill at source. SMALL SPILL: Remove liquid waste with oil-absorbing or mpounds and non-sparking tools. LARGE SPILL: Exclude persons not wearing protective equipment, dike area of spill and pump liquid into salvage tank. WASTE DISPOSAL METHOD: Do not incinerate closed containers. Do not dispose of waste material in sewers o waterways. Promptly incinerate wetted, combustible, oil-absorbing materials. Dispose in accordance with all local, State and Federal regulations.

SECTION X - PREVENTATIVE MEASURES

RESPIRATORY PROTECTION: If TLV of the product or any component is exceeded, a NIOSH/OSHA jointly approved, air supplied respirator is advised in absence of proper environmental control. OSHA regulations also permit other NIOSH/OSHA respirators under specified conditions (see your safety equipment supplier). Engineering or administrative controls should be inplemented to reduce exposure.

VENTILATION: Provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below TLV(s).

PROTECTIVE GLO'/ES: Oil resistant if prolonged contact is likely.

EYE PROTECTION: Goggles with side shields when spraying or where splashing is likely.

PENETROL/MARINE PENETROL

OTHER PROTECTIVE EQUIPMENT: Oil repellent, protective clothing if prolonged contact is likely.

HYGIENIC PRACTICES: Wash hands with soap and water before eating, drinking, smoking, or using toilet facilities Launder contaminated clothing before reuse.

SECTION XI - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: COMBUSTIBLE. Prevent contact with flames or hot surfaces. Do not store near heat. Keep containers closed when not in use. Avoid prolonged contact with skin. Avoid breathing concentrated vapors.

OTHER PRECAUTIONS: Store only in well-ventilated areas. Store out of sun and away from heat.

DANGER: Rags, a eel wool or waste soaked with this product may spontaneously catch fire if improperly discarded. Immediately after use, place rags, steel wool or waste in a sealed water filled metal contains r to prevent this.

SECTION 313 - SUPPLIER NOTIFICATION

This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 and 40 CFR 372:

CAS#

Chemical Name

% by Weight

100-41-4

Ethyl Benzene
